Projects

E-commerce Web Site

Developed a comprehensive e-commerce website using front-end technologies. Implemented a user-friendly search bar for efficient product navigation, a contact page for customer inquiries, and a clear navigation bar for seamless site exploration.

Automatic Food Feeder For Fish

A smart fish feeder that uses sensors to automate feeding. It ensures precise food delivery, reduces waste, and promotes optimal fish health. Ideal for both commercial and home aquarium.

Co-Circular Activity

- ICCSICE'24 International Conference on Scopes in Information and Communication Engineering [karpagam college]
- Technical Event Co-Ordinator

Certification
